# AYUSH SINHA

Bengaluru, Karnataka | +91 9708700626 | sinhaayush0806@gmail.com | LinkedIn | GitHub | Portfolio

## PROFESSIONAL SUMMARY

B.Tech Information Technology graduate working as a Customer Solutions Engineer with hands-on experience in cloud infrastructure monitoring, AWS services, and production database operations. Proficient in active monitoring using AWS EC2 and CloudWatch, SQL-based data retrieval on Oracle LMS and LOS platforms, and end-to-end technical support. Solid programming foundation in Python and Core Java, with full-stack web development skills. Seeking cloud operations, AWS, or Fintech roles that leverage real-world production exposure.

## EDUCATION

BK Birla Institute of Engineering and Technology, Pilani, Rajasthan — 2022 – 2026

**Bachelor of Technology in Information Technology | CGPA: 8.98/10**

## SKILLS

**Cloud & Infrastructure:** AWS (EC2, CloudWatch, S3), Active Monitoring, Cloud Infrastructure Management

**Networking & Security:** Computer Networking, Cyber Security Fundamentals

**Database & Domain Tools:** Oracle (LOS, LMS), MySQL

**Programming Languages:** Python, Core Java, C

**Web Technologies:** JavaScript, TypeScript, HTML5, CSS3

**Developer Tools:** Git, GitHub, VS Code, PyCharm, Jupyter Notebook

**Soft Skills:** Strategic Planning, Conflict Resolution, Communication, Team Coordination

## PROFESSIONAL EXPERIENCE

**Customer Solutions Engineer | Gehnax Technologies LLP, Delhi (WFH)** — June 2026 – Present

- Perform active monitoring of cloud infrastructure and production systems to ensure uptime, performance, and incident response.
- Manage and configure AWS EC2 instances and CloudWatch dashboards for real-time infrastructure alerting and observability.
- Execute SQL queries on Oracle LMS and LOS production databases for data retrieval and resolution of operational issues.
- Deliver end-to-end technical support for cloud and infrastructure-related issues in a fast-paced Fintech environment.

**Tech Intern | MindDhara, Gurugram (Remote)** — Dec 2025 – Feb 2026

- Supported website updates, tool configuration, and Google Workspace administration to streamline IT operations.
- Contributed to internal process improvements by enhancing digital workflows and infrastructure support.

**Java Developer Intern | Groot Software, Jaipur** — June 2025 – July 2025

- Developed and optimized backend modules using Core Java and object-oriented design principles.
- Followed structured development workflows and deployment best practices within a professional team setting.

**Python Programming Intern | Internshala Trainings (Remote)** — June 2024 – July 2024

- Built PyQt GUI applications with SQLite integration and developed AI-based mini projects using Python.
- Recognized as a top performer for consistent delivery and quality of work throughout the programme.

## PROJECTS

**ResumeAI | TypeScript, React, Node.js, MongoDB, Gemini API** — Live Link

- AI-powered resume builder with smart content suggestions, ATS optimization, and real-time NLP feedback.

**NotesGem | TypeScript, React, Prisma, PostgreSQL, Gemini API** — Live Link

- Feature-rich note-taking app with rich text editing, categorization, search functionality, and responsive design.

## CERTIFICATIONS

**Core Java Development** (Groot Software, 45 days) | **Python Programming** (InternPe, 4 weeks) | **Programming with Python** (Internshala, 6 weeks) | **C++, Python, Java** (IIT Bombay) | **AI/ML Workshop** | **National IP Awareness Training Program**

## ACHIEVEMENTS

- Gained production-level exposure with AWS EC2, CloudWatch, and Oracle LMS/LOS in an enterprise Fintech environment.
- Completed 6+ industry-recognised certifications in Java, Python, C++, and AI/ML, demonstrating continuous professional development.
- Delivered 10+ full-stack projects on GitHub across web, AI, and systems domains.
- Transitioned from software development to cloud and infrastructure operations, bringing cross-domain technical depth.
